2.36 (b) (6)

ANNUAL REPORT.

Section 2.36(b)(6) Annual report: The annual report shall state the common names and the numbers of animals upon which experiments, teaching, research, surgery, or tests were conducted involving accompanying pain or distress to the animals and for which appropriate anesthetic, analgesic, or tranquilizing drugs were used.

This research facility reported 1506 guinea pigs in Column D on the 2005 annual report, APHIS Form 7023. These guinea pigs were not used in research, but were used under the facility's dealer license. The guinea pigs were administered anesthesia for blood collection and were mistakenly put on the annual report for research. The guinea pigs should not have been reported on the APHIS Form 7023. Annual reports must accurately report the research facility's animal usage to comply with the Animal Welfare regulations. The 2005 Annual Report for this research facility must be amended and submitted to the Eastern Regional Director:

Dr. Elizabeth Goldentyer
USDA, APHIS, Animal Care
Eastern Regional Office
920 Main Campus Drive, Suite 200
Raleigh, NC 27606

Correct by March 2, 2006.
